202.2 Organisation of Races in other Countries

Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

203 Licence to participate in FIS Races (FIS Licence)

A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

203.1 The FIS licence year begins on July 1st and finishes on June 30th of the following year.

203.2 To be eligible for participation in FIS events, competitors must have a licence issued by their National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of a licence can be limited to participation in one specific country or in one or more specific events.

203.2.1 The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.

203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when the competitors have proven their nationality and therefore eligibility by submitting a copy of their passport and signed the Athletes Declaration in the form approved by the FIS Council and returned it to their National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, competitors may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS Licence Registration

All applications to change licence registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring (applications may only be submitted by 1st May each year). In principle an application to change licence registration will not be granted unless the competitors demonstrate their personal association with the new nation.

Prior to submitting an application to change licence registration competitors must possess the citizenship and passport of the country for which they wish to compete. In addition, competitors must have had their principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exception to the two year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country.

Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry. Furthermore competitors are required to submit a detailed explanation with the application about their personal circumstances and the reason for requesting a change of licence registration.

203.5.1 If competitors have already participated in FIS calendar events for a National Ski Association, they must have the written agreement to be released from the former National Ski Association in addition to the citizenship, passport and residency requirements in art. 203.5 before the new National Ski Association may submit a request to FIS for a change of registration.

If such a written agreement is not given, the competitor may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which they competed for their present National Ski Association, nor may they be issued with a licence to participate in FIS races by the new National Ski Association.

These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association licence registration.

203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so (e.g. to decline to grant a change of licence if a member National Ski Association tries to “import” a competitor).

203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association licence registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.

203.5.4 Competitors will retain their FIS Points if they change their National Ski Association under the condition that the former National Ski Association granted the release of the competitor.

203.5.5 In the event that any of the documents for an application to change licence registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

- d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.
- e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2 *Production and Technical costs*

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights, as applicable. This also applies to any other production costs that may be requested.

208.3.3 *Short extracts*

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is noted that in a number of countries national legislation governs the showing of short extracts in news programmes.

These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes

- a) In those countries where legislation exists regarding news access to sporting events then this legislation will always hold precedence for reporting on FIS events.
- b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company

managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four hours after the rights holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any request to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.

- c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.
- d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration 208.3.2 above.

208.4

Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder, and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5

Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster's website, provided no changes are made to the bulletin as transmitted in the original programme. Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video recordings that may be posted on websites. Appropriate information advising that the unauthorised production and use of video material is prohibited and that legal proceedings could be taken, will be shown at all entrances and printed on entrance tickets.

All National Ski Associations and the rights holders/agencies will give permission for short extracts to be placed on the FIS website for non-commercial use subject to the following conditions:

- a) When short extracts have not been acquired for Internet distribution the maximum duration of the news material from FIS competitions will be 30 seconds per discipline/per session and will be accessible on the FIS website until 48 hours after the end of the competition. The financial conditions relating to the provision of this material will be agreed between the FIS and the rights owner.
- b) The material will be provided by the rights owner or host broadcaster as soon as possible, but at the latest six hours after the end of the competition.

208.6 Mobile and portable devices

In the cases where the rights for distribution by mobile and portable devices have been awarded, the rights purchaser/operator will be free to produce from the television signal the content it considers best meets the needs of its customers. Any live streaming of television programmes on a national basis using these devices shall not be altered from that available through other distribution channels.

In countries where no mobile distribution rights have been sold, short extracts or clips of a maximum duration of 20 seconds will be offered to operators when the material has been produced and for a period of 48 hours on the condition that the operators pay all related technical costs to the agency/company managing the rights.

208.7 Future developments

The principles contained in this Rule 208 shall be the basis for the exploitation of Electronic Media Rights to FIS events in the future. The FIS Council, on the recommendation of the National Ski Associations, the relevant commissions and experts, will establish the conditions considered appropriate to each new development.

209 Film Rights

All agreements regarding film productions of FIS competitions will be between the film producer and the National Ski Association or the company managing the related rights. All contractual arrangements regarding the exploitation of other media rights will be respected.

210 Organisation of Competition

211 The Organisation

211.1 The Organiser

211.1.1 The Organiser of a FIS competition is the person or group of persons who make the necessary preparations and directly carry out the running of the competition in the resort.

211.1.2 If the National Ski Association itself is not the competition organiser, it may appoint an affiliated club to be the organiser.

The Organising Committee consists of those members (physical or legal) who are delegated by the organiser and by the FIS. It carries the rights, duties and obligations of the organiser.

The Organising Committee requires liability insurance with coverage of at least CHF 1 million; whereby it is recommended that this sum is at least CHF 3 million; this sum can be increased according to decisions of the FIS Council (World Cup etc).

Additionally, the policy must explicitly include liability insurance claims by any accredited participant, including competitors, against any other participant including but not limited to officials, course workers, coaches, etc

212.3 The Organiser respectively its' National Ski Association may request the FIS insurance broker to arrange cover for the competition (at the cost of the Organiser) if the organiser does not have the necessary insurance cover in place.

212.4 All competitors participating in FIS events must carry accident insurance, in sufficient amounts to cover accident, transport and rescue costs including race risks, as well as an appropriate third-party liability insurance. The National Associations are responsible for adequate insurance coverage of all their competitors sent and inscribed by them.

218 Creation and Distribution of Digital Content

218.1 Introduction

Information and data are an essential part of understanding and presenting sport, both as a means of measuring and reporting on athletic performance and communicating and promoting sport to the public. FIS, as the international body governing the sports of Skiing and Snowboarding, and with the cooperation of its National Ski Associations, is entrusted for the development, management and accuracy of data related to their common activities.

As an important part of the promotion of Skiing and Snowboarding, FIS encourages National Ski Associations to provide their members, stakeholders and fans with data and information related to FIS activities.

All National Ski Associations are encouraged to provide general information relating to the events and competitions on the FIS calendar, for use by interested parties,

The purpose of this Rule is to define digital content and identify how it can be exploited.

218.2 Definition of Digital Content

Digital Content shall mean all information related to FIS activities, which is made available in a digital form.

Digital Content is comprised of two elements:

- basic written digital content that is freely available, in the public domain and can be used without restriction. This includes documentary archives, reports, rules, official calendars, start and results lists including names of competitors, competition and venue information, running orders, statistics, rankings and standings and information regarding weather conditions, and
- specialist digital content which includes real time information provided by the Official Data and Timing Providers, athlete biographical information and performance data, event and other related content produced by stakeholders, including content on the social media sites of athletes, sponsors and officials

Also included are all video archives for which exploitation rights are available.

Digital content includes all formats, together with any graphical, textual, video or other representations of such data, information and statistics.

218.3 Ownership of Digital Content

The ownership of digital content is determined by the relevant permissions and the contractual relationship, if any, under which such content has been produced and the conditions to be applied for its exploitation.

218.4 Use of Specialist Digital Content

The development of digital technology has made it possible for the consumer to have instant access to specialist digital content that enhances the viewing experience and interest in sport.

Access to moving pictures can stimulate interest in FIS competitions, and the inclusion of live timing and data feeds adds to the attraction of any video production. Use of the live timing and data feeds on World Cup and World Championships competitions is subject to obtaining the agreement of the owner of these feeds.

218.5 Access to Specialist Digital Content

Each party seeking to access specialist digital content must find an agreement with the owner/rights holder of the digital content and defining the terms and conditions under which this content can be used. In all cases, and particularly with regard to personal data, a strict adherence to the GDPR or other equivalent law or regulation must be enforced.

The FIS shall advise anyone seeking to use specialist digital content, the name of the owner/rights holder and provide contact numbers.

Should individual owners/rights holders of specialist digital content consider it appropriate, their content could be bundled and offered centrally to the market using the FIS as their representative.

218.6 Review

In view of constant change and development in technology this rule will be kept under constant review and when appropriate updated on a regular basis.

219 Prizes

219.1 The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half years before the competition season. The organisers have to inform the FIS by October 15th of the amount.

219.2 If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.

219.3 All prizes are to be awarded no later than the final day of a competition or event series.

220 Team Officials, Coaches, Service Personnel, Suppliers and Firms' Representatives

In principle these regulations apply to all disciplines, taking into consideration the special rules.

220.1 The Organising Committee of an event must provide the Technical Delegate with a list of persons accredited to the competition.

220.2 It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with art. 207.

220.3 Team officials accredited service personnel and suppliers receive from the FIS an official FIS accreditation and must perform their specified function.

The individual organisers are free to accredit additional company representatives or other important persons.

220.4 Only persons who have the official FIS accreditation or a special accreditation from the organiser for course or jumping-hill have access to the courses and jumping-hills (according to special rules of the discipline).

220.5 The Different Types of Accreditation

220.5.1 Technical Delegates, the Jury, and the persons mentioned in art. 220 with clearly visible accreditation have access to the courses and jumping-hills.

220.5.2 Servicemen attached to teams are permitted entry to start area and service area at the finish. They are not allowed entry to the courses or jumping-hills.

220.5.3 Company representatives accredited at the discretion of the organisers who do not have FIS accreditation are not permitted entry to the courses and restricted service areas.

221 Medical Services, Examinations and Doping

221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor's own nation.

221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.

221.3 Doping is forbidden. Any offence under these FIS Anti Doping Rules will be punished under the provisions of the FIS Anti-Doping Rules.

221.4 Doping controls may be carried out at any FIS competition (as well as out-of-competition). Rules and procedures are published in the FIS Anti-Doping Rules and FIS Procedural Guidelines.

221.5 Gender of the Competitor

If any question or protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size, level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators
- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back-up plan must be in place before recommencing the official training or competition.

The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the FIS Medical Guide.

222 Competition Equipment

222.1 Competitors may only take part in a FIS competition with equipment which conforms to the FIS Regulations. Competitors are responsible for the equipment that they use (skis, snowboard, bindings, ski boots, suit, etc). It is their duty to check that the equipment they use conforms to the FIS specifications and general safety requirements and is in working order.

222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.

222.3 All new developments in the field of competition equipment must be approved in principle by the FIS.
The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.

222.4 New developments must be submitted by May 1st, (Grass Ski August 1st) at the latest, for the following season. The first year new developments can only be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.

222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed).
In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded.

222.6 Controls

Before and during the competition season or on submission of protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an officially recognised institution. In cases of protest

against items of the competition equipment, the losing party will bear the investigation costs.

No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

222.7 Prohibited of scientific and medical Equipment at FIS Events

It is prohibited for any National Ski Association, its representative or team members to bring and/or use any of the following scientific or medical equipment ("Equipment") into/at any Event Venue during FIS World Championships, World Cups and other competitions registered in the FIS Calendar:

- Oxygen tanks, cylinders and related devices;
- Hypoxic or hyperoxic tents, chambers and related devices;
- Cryogenic chambers for whole body cryotherapy and related devices.

It is the responsibility of the National Ski Association to ensure compliance with this Article 222.7 by all its representatives or team members. Failure to respect this Article 222.7 will be subject to Penalties provided by Article 223.3. In case of recurrence, disqualification of an athlete shall be imposed irrespectively of whether the violation of this provision would result in an advantage for the Athlete(s) with regard to the end result of the competition.

In addition to the sanctions listed above, the FIS may order the immediate removal of the Equipment from the Event Venue at the costs of the responsible NSA.

222.8 Fluorinated ski wax prohibition

Use of fluorinated wax or tuning products containing fluorine is prohibited for all FIS disciplines and levels.

Fluorinated wax can be a competitive advantage and its use in competition will result in disqualification. (see competition rules and equipment specifications.)

NOTE: Techniques (C/F) will alternate between OWG and WSC, as well as between Individual and Team Sprint competitions, and between Interval Start and Mass Start competitions.

The composition of the programme can change due to the fact that there are more competition days available during the OWG than at WSC. The TV coverage will be a major factor in these considerations.

Skiathlon will always be conducted with classical technique first and then free technique.

The Relay competitions will be conducted using two legs classical first and then two free technique legs.

310.3.1.2 At WSC a qualification competition will be scheduled for the athletes who did not reach the entry requirements (check the WSC Rules).

310.3.2 World Cup

The programme for the World Cup season is determined by the FIS every year. Distances and techniques are decided annually. To be able to support development of the Cross-Country sport, test competitions can be a part of the WC programme. Long distance competitions may be included.

* Interval Start and Sprint competitions will alternate techniques each year.

311 Cross-Country Competition Courses

311.1 Fundamental Characteristics

311.1.1 Cross-Country courses must be laid out so that they provide a technical, tactical and physical test of the competitors' qualifications. The degree of difficulty should be in accordance with the level of the competition. The course should be laid out as naturally as possible to avoid any monotony, with rolling undulating sections, climbs, and downhill sections.

Rhythm should not be broken by too many sharp changes in direction or steep climbs. The downhill sections must be laid out so that they create a challenge to the competitors. At the same time it should be possible to ski the course even under fast conditions.

311.1.2 In principle, the Cross-Country course should consist of

- One third uphills defined as climbs with a gradient between 9% (1:11) and 18% (1:5.5) with height differences over 10 meters plus some short climbs steeper than 18%.
- One third undulating, rolling terrain, utilizing all terrain features with short climbs and downhills (with height differences of 1-9 meters).
- One third varied downhills, demanding versatile downhill techniques.

311.1.3 At OWG, WSC, JWSC, WC and COC Cross-Country competitions the courses may only be used in the direction established in the homologation certificates.

311.1.4 A test area should be prepared and clearly marked along or near the competition course.

311.1.5 Warm up courses should be prepared as close as possible to the stadium.

311.2 The Homologation

311.2.1 All FIS Cross-Country competitions should be carried out on homologated courses. Exceptions are: popular competitions, Roller Skiing competitions, substitute courses if approved by the Jury. The details on homologation procedure are described in FIS Cross-Country homologation manual.

311.2.2 In competitions designed for Cross-Country sport promotion it is possible to use courses outside of the homologation standards providing they have been approved by the Sub-Committee for Rules and Control.

311.2.3 The organiser must supply copies of the approved course maps and the homologation certificate to its TD. A graduated scale and a north direction arrow must be included.

311.2.4 Definitions

311.2.4.1 HD (height difference) is the difference in height between the lowest and highest points of a competition course.

311.2.4.2 MC (Maximum climb) is the climb with the highest partial total climb (PTC), in other terms, the biggest uphill. The uphill can be interrupted by a section

of undulating terrain that does not exceed 150 m in length or a downhill that does not exceed 10 m PHD.

311.2.4.3 TC (Total climb) represents a total of all climbs on the course.

311.2.5 Norms for Cross-Country courses.

The HD, TC and MC of the homologated competition courses should be within the following norms:

Course distance (loop length)	Minimum climb (in PHD m) ²	HD	MC (in PTC m)	TC
Sprint F	-	max. 50 m	0 – 30 m	0 – 60 m
Sprint C	1 climb > 15 m	max. 50 m	15 – 40 m	20 – 60 m
2.5 km	1 climb > 25 m	max. 50 m	25 – 50 m	75 – 105 m
3.3 km	1 climb > 25 m	max. 65 m	25 – 65 m	100 – 140 m
3.75 km	1 climb > 30 m	max. 80 m	30 – 80 m	110 – 160 m
5 km	1 climb > 30 m	max. 100 m	30 – 80 m	150 – 210 m
7.5 km	2 climbs > 30 m	max. 125 m	30 – 80 m	200 – 315 m
8.3 km	3 climbs > 30 m	max. 125 m	30 – 80 m	210 – 330 m
10 km	3 climbs > 30 m	max. 125 m	30 – 80 m	250 – 420 m

Longer loops should follow the same principles.

311.2.6 Course width categories

Course widths for particular competition formats should follow the following table:

Category	Minimum course width			Used for

² A climb is defined as an uphill with a gradient from 9 - 18 %, broken up with short undulating sections less than 150 meters in length, steep uphills = 4m < PHD < 10m, gradient > 18%, or a downhill that does not exceed 10 m partial height difference (PHD). The average gradient of the climb, including undulating terrain and downhill sections must be 6 - 14%.

Category	Minimum course width			Used for
	Uphills	Undulated terrain	Downhills	
E	12 m	9 m	6 m	Skiathlon (when both techniques are used on the same course)

311.2.6.1 It is possible to use a lower category course for a particular format at COC or FIS level competitions providing it is approved by the TD. The number and level of competitors must be considered.

311.2.7 At OWG, WSC, JWSC and WC competitions, the highest point of a Cross-Country course should not exceed 1800 m.

311.2.8 For courses with the highest point above 1800 m elevation, the requirements for MC and TC in table 311.2.5 should be reduced by 20%.

311.2.9 At OWG, WSC, JWSC/U23 and WC, the minimum lap length for interval start competitions of distances 10 km or longer should be 5 km.

311.3 Preparation of the Course

311.3.1 Pre-Season Preparation

The courses must be prepared before the winter so that they can be raced even with very little snow. Rocks, stones, roots, stumps, brush and similar obstacles should be removed. Sections of the course that have drainage problems must be corrected. The summer preparations should be of a standard which allows for carrying out of competitions with approximately 30 cm of snow. Special attention must be given to downhill sections and the need for banking the curves.

311.3.2 General Preparation for the competition

311.3.2.1 The course should be completely prepared with mechanical equipment. If heavy machines are used, they should follow the original configuration of the ground as much as possible in order to preserve the undulations of the terrain.

311.3.2.2 The course must be prepared to the recommended width according to the Homologation Manual and the competition format (see ICR articles section C). The course must be prepared so that competitors can ski and pass unobstructed. On slopes where the courses traverse, they must be wide enough to allow for good preparation.

311.3.2.3 The courses and the warm up tracks must be completely prepared before the official training, correctly marked and with the kilometer signs in place.

311.3.2.4 The same conditions must be ensured for all competitors during the competition. If it is snowing or blowing hard, a sufficient number of qualified fore-runners and/or especially equipped patrols must be available and utilized in order to maintain constant conditions. An action plan has to be prepared in cooperation with the Jury.

311.3.2.5 All use of artificial means in order to improve the glide on the snow are forbidden. In special cases use of chemicals to prevent a soft surface is allowed.

311.3.3 Preparation for Classical Technique

311.3.3.1 The number of tracks will be decided by the Jury according to the length, the width, the profile of the course, the competition format and number of entries (see ICR articles section C).

311.3.3.2 The tracks should be in general set along the ideal skiing line of the competition course. The track is normally set in the middle of the course except through curves.

311.3.3.3 In curves there should only be set track where the skis can glide unrestrained in the set track. Where the curves are too sharp and the speed is considered to be too high for the skier to stay in the track, the track should be removed. In curves the track is to be set close to the fence to avoid the possibility to ski between the track and the edge of the course.

311.3.3.4 To decide the proper course preparation and track setting, the best competitors and highest possible speed must be taken into consideration.

311.3.3.5 The ski tracks must be prepared so that ski control and gliding are possible without a lateral braking effect by any parts of the bindings. The two tracks should be set 17-30 cm apart, measured from the middle of each track. The depth of the track should be 2-5 cm, even in hard or frozen snow.

311.3.3.6 Where two or more tracks are used, they should be a minimum 1.20 meter apart measured from the middle of each pair of tracks.

311.3.4 Preparation for Free Technique

311.3.4.1 The course must be well-packed the entire width. The width of the course should be suitable with the competition format (see ICR articles section C).

311.3.4.2 The Jury determines where and how tracks will be set in the downhill.

311.4 Marking the Course

311.4.1 The marking of the course must be so clear that the competitor is never in doubt where the course goes. Hard material course markings and commercial markings should only be placed at the sides of the course.

311.4.2 Kilometer signs should mark the accumulated distance skied along the course.

311.4.3 Forks and intersections on the course must be clearly marked by visible signage, and fences or V-boards must be placed across unused parts of the course.

311.5 Refreshment Stations

311.5.1 The OC must at a minimum provide a refreshment station (in the finish area).

311.5.2 The Jury decides on positions or limitations on feeding stations on the competition course.

311.6 Training and Inspection of the Course

311.6.1 Competitors and team officials should be given the opportunity to train and inspect the course in competition conditions. When possible, the course should be open two days before the competition. The Jury may close the course or limit the use of the course to certain sections or hours.

312 The Cross-Country Stadium

312.1 Stadium Area

312.1.1 A Cross-Country stadium has to be prepared with a well-designed start/finish area.

312.1.2 The stadium arrangement should provide a functional entity divided and controlled as necessary by gates, fences and marked zones. It must be prepared in such a way that

- the competitors may pass through it several times,
- competitors, officials, media, service people and spectators may reach their respective areas easily,
- there is enough space to carry out all competition formats.

312.2 Start Zone

312.2.1 The first 50 m will be the start zone. This zone may be separated into corridors and classical tracks may be set. The number, width and length of corridors will be determined by the Jury according to the competition formats (see ICR articles section C) and the stadium layout.

312.2.2 The starting positions will be set according to the competition formats (see ICR articles section C).

312.3 Finish Zone

312.3.1 The last straight 50 m or more will be the Finish Zone. This zone is normally separated into corridors. They must be clearly marked and highly visible but the markings must not interfere with the skis. The corridors should be as long as possible. The number, width and length of corridors will be determined by the Jury according to the competition formats (see ICR articles section C) and the stadium layout.

312.3.2 The finish line must be clearly marked with a colored line. The width of the finish line is maximum 10 cm.

312.4 Exchange zone

312.4.1 In team events, the exchange zone should be sufficiently wide and long, clearly marked and located on flat or smoothly rising ground in the stadium.

312.4.2 The size (length and width) should be adapted to the competition formats (see also ICR articles section C) and the available space in the stadium.

312.5 Pit boxes

- 312.5.1 When ski exchange is allowed, the pit box area must be designed so that each competitor has a designated box marked by his/her bib number and an exit is provided that minimizes any chance for interference. A bypass corridor must be provided so that any competitors who do not enter their pit boxes will have the shortest skiing distance past this ski exchange area.

312.6 Working Conditions

- 312.6.1 Competition officials, Jury members, Coaches, media and service people must have proper working zones within the stadium area so that they can work without disturbing the process of start and finish. The access of these persons to the stadium area must be controlled.
- 312.6.2 Timekeeping and calculation should be located in a building with a good view of the start and finish.
- 312.6.3 At OWG, WSC, JWSC, WC and COC competitions, FIS Officials and Jury members must be provided a working room with a good view of the stadium, and in the immediate vicinity of the stadium.
- 312.6.4 A heated room must be provided for the medical office near the stadium.

312.7 Additional Facilities

- 312.7.1 In the immediate vicinity of the stadium at OWG, WSC, JWSC and WC a controlled (with fences or manual control) team preparation area with wax cabins and space for wax trucks must be installed. The cabins must be heated and well ventilated using forced air exchangers. Additional rules may apply for OWG, WSC, JWSC and WC.
- 312.7.2 Toilets and wash rooms must be installed for competitors near the stadium. They must be easily reached from the start area.

312.8 Current Information Facilities

- 312.8.1 A notice board showing results, important information from the OC and the Jury should be located close to the wax cabins and the stadium.
- 312.8.2 Temperature measurements must be taken in the stadium area and at places where extreme temperatures (low point, high point) can be expected.
- 312.8.3 Loudspeakers must be used for announcing the competition and important information.
- 312.8.4 In order to inform international competitors, trainers, spectators, English language must be used.

313 Official Entries for the Organiser

313.1 Procedure

- 313.1.1 Official entry forms must be sent by the Organiser to all relevant Nations in an electronic or paper form. An online registration process can also be provided.

- 313.1.2 As a minimum, the required data fields shown in the Official FIS Entry Form must be included.
- 313.1.3 For WC this entry process will be determined by the FIS Cross-Country Committee.
- 313.2 Receiving official entry information for a specific competition
- 313.2.1 Official entries and grouping information (when required) must be received and checked by the competition secretary latest two hours before the Team Captains' meeting.
- 313.2.2 If grouping will be used to determine the starting order, then the competition secretary will use the order of the written entry to assign the competitors into groups unless other specific instructions are provided.
- 313.2.3 When the starting order will be determined according to the FIS Points, the Competition Secretary will be required to compile the current point values for each competitor within the valid points list.
- 313.3 Late Entries**
- 313.3.1 Late entries can be admitted by the Jury before the draw.
- 313.3.2 Late entries are not admitted after the draw.
- 313.4 Substitution**
- 313.4.1 After the draw competitors can only be substituted if they cannot start due to force majeure (injury, illness, etc.) and if the Jury permits the substitution. This has to be certified by a medical doctor and communicated to the Jury until 2 hours before the start.
- 313.4.2 In the event of an accident during warming up the Jury can permit a substitution up to the start of the competition if the accident is reported to and certified by the Chief of medical and rescue service of the OC.
- 313.4.3 If the withdrawn competitor was selected for doping control then this test must still be carried out and must also be carried out on the substitute competitor. If the withdrawn competitor produces a positive test, no substitute will be allowed.
- 313.4.4 The starting position of the substitute competitor will be according to ICR articles section C „competition formats “
- 313.4.5 Competitors, who are on the starting list and cannot take part in the competition because of illness or other reasons, must be reported by the team captain to the competition secretary at latest 30 min. before the start. If any of these competitors were selected for doping control, they must still be tested.
- 313.5 Grouping**
- 313.5.1 If grouping is used to determine the starting order, the Team Captain must distribute his/her competitors evenly within the groups. This must be done latest 2 hours before the draw. If a nation enters more competitors than

there are groups, the extra competitors must be distributed among the groups, one per group, at the option of the Team Captain. This rule also holds for teams with fewer competitors than groups.

Example:

Teams:		Groups:			
		I	II	III	IV
Team A	8 entries	2	2	2	2
Team B	6 entries	1	2	1	2
Team C	3 entries	1	-	1	1

313.5.2 With 20 competitors or less, use groups I and II; with 21 - 40 competitors, use groups I, II and III; with more than 40 competitors, use all four groups.

314 Starting Order

314.1 Principles

314.1.1 The start list can be created with a draw, using a point system, a cup standing, a stage event overall standing, a qualification system or other methods.

314.2 Draw

314.2.1 Manual and computer methods are allowed for the draw.

314.2.2 The draw is carried out by using a random double selection.

314.2.3 If grouping is used, the start numbers will be drawn within each group. The normal starting order of the groups will be I, II, III and IV. The grouping of the competitors cannot be changed during the draw.

314.2.4 If a competition has to be postponed to a different date, the draw must be repeated (article 217.6).

314.2.5 It is possible to have the draw conducted before the Team Captains' Meeting under the supervision of the Jury.

314.3 Manual Draw

314.3.1 In this method, each competitor receives one number from a sequence determined by the number of competitors in their group (for instance, 23 competitors in the group, the competitor is assigned a number between 1 and 23). In the first random selection, one of the numbers 1-23, is drawn. At the same time, a start number that has been assigned to that group is drawn (for example, group II with 23 competitors will race with bibs 45-67 inclusive). This number that is drawn is the start number for the competitor whose number was drawn in the first random selection. For both random selections, balls with the appropriate numbers on them are usually drawn by hand from a closed box or container. After the two balls are drawn, the nameplates of the competitors are transferred from the board with the grouping to the board with the starting order.

314.4 Computer Draw

314.4.1 The computer draw procedures must be inspected by a member of the Jury in order to validate the process.

314.4.2 This method requires that the names and the grouping of the competitors will be entered into the computer. The programme provides at least four stages of output on the monitor.

1. The list with the registered competitors and their sequential numbers within a group appears on the monitor.
2. The computer randomly selects the name of one competitor and displays it on the monitor.
3. The computer randomly selects a start number for this competitor. The start number and the name of the competitor now appear on the monitor.
4. The monitor then shows the start list order with this competitor listed.

314.5 Using a Points System to Determine the Starting Order

314.5.1 The starting order can be made on the basis of the FIS Points; overall list, distance list or sprint list.

314.5.2 Refer to the Rules and Guidelines of the FIS Points to determine valid lists.

314.6 Seeded Group

314.6.1 The Seeded Group is an exception and is composed of the best athletes entered in a competition. The seeded group can be determined according to the FIS Points, to a current Cup Standing or a current stage event standing.

314.6.2 All competitors who are eligible to be in the Seeded Group must start the competition within the Seeded Group.

314.6.3 The starting position of the seeded Group will be determined for each different competition formats by the Jury according to the specific competition rules. As a principle, the seeded Group should start with the most advantageous position.

314.7 Bibs (Start Numbers)

314.7.1 Design

Bibs must be readable from the back and the front. They must not hinder the competitor in any way. The size, the shape and the method of attachment cannot be changed. The Organiser is responsible for obtaining practical bibs. Bibs used in sprints and in competitions with Pursuit start or Mass Start procedures should also have numbers on both sides under the arms; this is also possible for other competitions.

314.7.2 Leg Numbers

314.7.2.1 For Mass Start, Skiathlon, Pursuit, Individual Sprint competitions it is required to affix bibs to the competitor's leg that is closest to the finish line camera.

314.7.2.2 For Team Sprint and Relay competitions it is required to affix bibs to the finishing competitor's leg that is closest to the finish line camera.

314.8 Start list

314.8.1 Start list must contain the starting order of competitors, their start numbers, years of births, respective FIS points, start time(s), the technical details of the course; length, HD, MC, TC, number of participating nations and composition of the jury.

315 Start Procedures

315.1 Types of Starts

315.1.1 For competitions on the International Ski Calendar, Interval Start, Mass Start, Pursuit Start, and Heat Start will be used.

315.2 Interval Start Procedure

315.2.1 Interval Starts will normally use half-minute intervals and fifteen seconds for sprint qualifying round. The Jury may approve shorter or longer intervals.

315.2.2 The start command consists of a countdown starting 5 seconds before the start time ("5-4-3-2-1") and start signal ("GO!"). The command can be given verbally or by audible signals.

315.2.3 The competitor must have their feet behind the start line. The poles must be placed in front of the starting line and/or starting gate.

315.2.4 The competitor may start any time between three seconds before and three seconds after the start signal. If he/she starts more than three seconds before the start signal, it is a False Start. If he/she starts more than three seconds after the start signal, it is late start and the start list time will count.

315.2.5 Competitors who start late must not interfere with the start of others.

315.2.6 With both electric and hand-timing, the competitor's actual start time must be noted in case the Jury decides their late start was due to force majeure.

315.2.7 Example of start list for Interval Start can be found at:
<http://data.fis-ski.com/pdf/2017/CC/2228/2017CC2228SL.pdf>

315.3 Mass Start Procedure

315.3.1 The Mass Start should be carried out using angled start lines in shape of an arrow. This means that the athlete with start number 1 has the most favorable start position followed by start number 2 etc. Each competitor should be separated by a fixed distance interval.

Number one will be in the middle position; even numbers are placed on the right and odd numbers on the left side of the arrow. The numbering mark should be placed to the right or in the middle of the track.

315.3.2 The jury shall decide whether to set classical tracks in the start grid.

315.3.3 The starting procedures for a Mass Start will begin two minutes before the start signal. At this time instructions about the start will be given to all competitors assembled in their start lanes. These instructions should end with the competitors being instructed to stand at their start positions and a “one minute to start warning” is given. Next there will be the command “30 seconds to start”. When all competitors are motionless then the next sound will be the start command or signal.

315.3.4 If the start grid is set with classical tracks, then competitors must use only classical technique and are not allowed to leave their assigned tracks within their start position and end of marked corridors the first 15-50 m after the start line.

315.3.5 Example of start list for Mass Start can be found at:
<http://data.fis-ski.com/pdf/2017/CC/2267/2017CC2267SL.pdf>

315.4 Pursuit Start Procedure

315.4.1 The starting order and intervals are set according the results of a first competition or a stage event current overall standing. The tenths of seconds will be deleted to establish the start list.

Rank	Name	Country	Final
1	SVENSSON, Lars	SWE	25:12.9
2	ARKJANOW, Nikolai	RUS	25:14.2
3	KRECEK, Jan	CZE	25:21.7

The start list should be prepared according to the following example:

Start number	Name	Country	Start time
1	SVENSSON, Lars	SWE	0:00
2	ARKJANOW, Nikolai	RUS	0:02
3	KRECEK, Jan	CZE	0:09

315.4.2 In order to avoid overlapping or competition taking too long, the Jury may allow a Mass or Heat Start for the late starting competitors. The Jury is also allowed to reduce the number of starting competitors.

315.4.3 The Pursuit Start is carried out without an electronic start gate. A video camera should be used to record the entire start such that a review by the Jury can be done.

315.4.4 In order to guarantee an exact start, a large display clock must be used for each starting lane together with bib number and starting times for respective competitors for that lane. The start must be prepared so that two or more competitors may start side by side.

315.4.5 The competitors are not allowed to change corridors within the marked corridor area after the start line.

315.4.6 Example of start list for Pursuit competition can be found at
<http://data.fis-ski.com/pdf/2017/CC/3033/2017CC3033SL.pdf>

315.5 Heat Start procedure

- 315.5.1 The start area is prepared with a start line and a pre-start line that are 1 meter apart.
- 315.5.2 Electronic and/or mechanical start gates can be used if approved by the Jury.
- 315.5.2.1 Use of start gates is mandatory at OWG, WSC, WC, U23 WSC and JWSC competitions.
- 315.5.3 Competitors are organised on the pre-start line where instructions are given and start lanes designated. The starter will give the command “take your start positions” and the competitors advance to the start line where they must place their poles behind the start line and/or start gates. When all competitors are at the start line, the starter will give the command “Set” and all the competitors must remain motionless until the starter gives the start signal.
- 315.5.4 Starts that do not use gates follow the same principles and procedures as stated above.
- 315.5.5 Competitors must use classical technique and are not allowed to leave their assigned tracks within marked corridors the first 10-15 m after the start line.
- 315.5.6 Example of a start list for Heat Starts can be found at <http://medias3.fis-ski.com/pdf/2017/CC/2221/2017CC2221SL.pdf>

315.6 Duties of the Start Officials

- 315.6.1 Start officials must provide all competitors with the opportunity to start at their correct times. An assistant must be placed near the starter and is responsible for recording the details for any violations at the start.

315.7 False Start Consequences

- 315.7.1 For competitions using Interval Start or Pursuit Start procedures competitors who make a False Start will not be recalled to the start line. False Start infractions must be reported to the Jury.
- 315.7.2 For all competitions using a Mass Start or Heat Start procedures, any False Start will result in a “restart” of the competition. The starter or the start gate must give a False Start signal. There must be assistants placed an effective distance down the tracks where it is possible to turn the competitors back.

315.8 Marking of Skis

- 315.8.1 Ski marking will not be used unless requested in advance by the sanctioning body of the competition. For purposes of control, both skis are marked shortly before the start. The competitor must come to the official marking place in person and in due time wearing their starting bib.

315.9 Temperature

If the temperature is below -20° C, measured at the coldest point of the course, a competition will be postponed or cancelled by the Jury. With

difficult weather conditions (e.g., strong wind, high air humidity, heavy snowfall, or high temperature) the Jury may, in consultation with the Team Captains of the participating teams and the Chief of medical and rescue service responsible for the competition, postpone or cancel the competition.

316 Timing

316.1 For all competitions listed in the FIS Calendar, electronic timekeeping must be used. Electronic timing will always be supplemented by hand-timing as a backup system and the results cross-checked between the two systems.

316.2 If the electronic timing temporarily fails hand times will be used by correcting the average time difference which develops between the electronic timing and the hand-timing. If the electronic timing fails frequently or completely during the competition, the hand times will be used for all the competitors. When hand times are used to calculate results, the actual start times must be used.

316.3 When using hand-timing, the time is taken when the competitor's first foot crosses the finish line.

316.4 Electronic Timing

316.4.1 The following electronic timing technologies can be used to identify the official finish times:

- Electronic timing system based on photo cells. The measuring point of the light or photo barrier must be at a height of 25 cm above the snow surface.
- Photo finish system. The measuring point will be the toe of the first boot meeting the finish line.

316.4.2 Transponder Timekeeping

Transponders (active systems) can be used as a supporting system to the official timing system to determine race times and ranking sequences at intermediate timing points, pre-timing points, and finish (unofficial result).

The official result must be confirmed by using electronic timing systems in accordance with ICR 316.4.1

316.5 In the case of competitors falling as they cross the finish line, the competitors will be assigned their finish time as per articles 316.3 or 316.4 if all the parts of their bodies are moved across the finish line without any outside assistance.

316.6 For the calculation of results all start and finish times will be recorded to at least 1/100 (0.01) precision. The calculated net time for each competitor is determined by subtracting the recorded start time from the recorded finish time. The final result for each skier will be determined to 1/10 (0.1) precision by truncating the calculated net time. For example, 38:24.38 becomes 38:24.3.

316.7 During the OWG, WSC, JWSC and WC, photo finish cameras must be used.

316.8 The finish referee is responsible for keeping a list of the order in which the competitors cross the finish line. They give this list to the chief of timekeeping and data processing.

316.9 An electronic timing report for every race must be transmitted to FIS.

317 Results

317.1 Calculation of Results

317.1.1 The results are calculated by taking the difference between the finish and start times.

317.1.2 The overall standing in a stage competition will be calculated by accumulating:

- the results (actual times) where tenths of seconds are truncated from each stage prior to last stage. The results of the qualification round will be used for sprint competitions.
- The result (actual times) with the tenths of seconds from the last stage.
- Bonus seconds and time penalties from each stage

317.1.2.1 Ties in overall standings

In case of a tie on the current overall standing (standings, published after each stage prior the final stage), the competitors will be ranked according to the highest number of individual wins and then the bests results (i.e. most 2nd places, most 3rd places...).

In case of a tie after the final stage (final overall ranking) the competitors will be ranked:

Stages with Pursuit start or Mass start: according to the finish arrival order of the last competition. If a tie remains, the competitors will have the same ranking on the result list.

Stages with interval start: The competitors will have the same ranking.

317.1.3 The ranking of athletes involved in a photo finish will be established according to the order they crossed the vertical plane of the finish line by the toe of the front foot.

317.2 Publication of Results

317.2.1 The unofficial result list will be posted on the official notice board as soon as possible after the competition, with the time of its publication noted.

317.2.2 The official result list must contain the final order of the competitors, their FIS Codes, starting number, times, intermediate times and competition points, skiing technique, the number of competitors, names of the competitors who started but did not finish, any written sanctions to competitors, the technical details of the course; length, HD, MC, TC, the weather, temperature data, number of competitors (entered, ranked, DNS and DNF), number of participating nations and the composition of the Jury.

Examples can be found on the FIS Website Cross-Country and through the FIS Nordic Office.

- 317.2.3 In countries where the Latin alphabet is not used, information and results should also be given in Latin characters.
- 317.2.4 The competition secretary and the TD sign the official result list and certify that it is correct.
- 317.2.5 All official results must also be electronically transmitted to FIS in XML format.

324 Pursuit

324.1 Definition

Pursuit competitions are carried out as combined competitions where starting times of athletes are determined by result(s) of previous competition(s) and the final result is determined by finish arrival order of the last competition.

324.4 Starting Order and Start Procedure

324.4.1 Pursuit Start procedure must be used (see ICR art. 315.4).

324.5 Timing and Results

324.5.1 The calculation of the final times in a Pursuit competition will be done by combining the results (actual skiing time) in the previous race without the tenths of a second with the final results of the second race with the tenths of a second. For competitors that use the Pursuit Start method the order of finish determines the final ranking.

The result list should contain times of previous race(s) (without tenths of seconds), actual racing times of the pursuit competition (with tenths of seconds) and total time (with tenths of seconds).

324.6 Jury and protests

No specific rules.

324.7 Competition interruption

In case of competition interruption while competitors are still competing, the competition will be valid if there are at least 6 ranked competitors. The competitors still on course at the time of interruption will be ranked in final results as lapped according to their respective position at last intermediate point.

325 Individual Sprint Competitions

325.1 Definition

Individual sprint competitions begin with a qualification round, organised as an Interval Start competition. After the qualification, qualified athletes compete in the sprint finals using elimination rounds (sprint heats).

325.2.2 The course used for the qualification round and the course used for the Finals Heats should be the same.

325.2.3 Sections of the course must be designed straight, wide and long enough to make overtaking possible.

325.3 Entries – Substitution

325.3.1 Substitution is possible before qualification according to ICR art. 313.4

325.3.2 The substitute athlete's start position will be determined by the Jury.

325.4 Starting Order and Start Procedure

325.4.1 Qualification

325.4.1.1 Interval Start procedure must be used (see ICR Art. 315.2). Start intervals can be 10, 15, 20 or 30 seconds.

325.4.1.2 If two laps are used an interval block start can be used.

325.4.2 Finals Heats (Quarterfinals, Semi-finals and Finals)

325.4.2.1 Heat Start procedure must be used (see ICR Art. 315.5)

325.4.2.2 In OWG, WSC, WC heats will include quarterfinals, semi-finals and the A-Final. In other competitions, the heats will be decided by the organizer including the addition of a B-Final.

325.4.2.3 The starting positions are chosen by the athletes according to the following order:

- Quarterfinals: qualification times (rankings) are used
- Semi-finals: rankings from the Quarterfinals and qualification times are used
- Finals: rankings from the Semi-finals and qualification times are used.

325.4.2.4 The assignment of competitors to quarterfinal heats is determined from the finish rankings in the qualification round. Positions in subsequent heats are also assigned based on rankings or times in the previous round of heats. The table below illustrates the principle of allocating the competitors to their heats when the heats are not timed.

325.4.2.5 Table A: quarter finals with 6 competitors in 5 heats

TABLE A Quarterfinals with 6 competitors in 5 Heats, maximum 30 advance					
Assigned to heats	Q1	Q2	Q3	Q4	Q5

Q3 #1	Q3 #2	S1 #6	S1 #3
R3-2*	R3-1*	S2 #6	S2 #3

* In competitions when the heats are not timed, the 6th positions in the semi-final heats are assigned from the 3rd ranked competitors in all the quarter final heats. The 3rd ranked competitor with the fastest qualifying time (Q R3-1) is assigned to the second semi-final heat S2 and the 3rd ranked competitor with the second best qualifying time (Q R3-2) is assigned to semi-final heat S1.

325.4.2.6

Or using Table B: quarter Finals using 4 heats

Q2 #2	Q4 #2	S2 #4	S2 #2

325.4.2.7

In case of lower number of qualified athletes, the following table can be used for semi-finals with no quarter finals:

Distribution 1- 12	S1	S2
	1	2
	4	3
	5	6
	7	8
	10	9
	12	11

325.4.2.8

For OWG, WSC, JWSC and WC the heats must be timed and the assignment of competitors into the semi-final heats and the A-Final is according to the following principles:

For the 6th positions in the semi-final heats the next two fastest competitors from the quarterfinal heats who are ranked 3rd or 4th will be advanced. The fastest will be assigned to S2 and the next fastest to S1. For the A-Final the 1st & 2nd ranked competitor from each Semi-final heat are assigned to the A-Final plus the next 2 fastest competitors from either Semi-final heat who are ranked 3rd or 4th will also be assigned to the A-final, all other Semi-finalists are assigned to the B-Final.

In case of equal times in the heats for positions 5 and 6 (lucky losers), their qualification times will apply. If the tie still remains current sprint FIS Points will apply; if a tie still remains, then the positions are determined by a draw.

325.4.2.9

In sprint competitions with less than 20 competitors in the Qualification Round the Jury can decide to use a reduced version of Table A or they can assign competitors directly into the Semi-finals or the A-Final.

325.4.2.10 Any competitor who causes a False Start will be sanctioned by a written reprimand. Following the first False Start in a heat, any competitor who causes a subsequent False Start in the same heat will be required to withdraw from the competition. The competitor will be ranked as the last position of the applicable final, semi-finals or quarter finals round (rank 6, 12, 30 or 4, 8, 16).

325.5 Timing and results

325.5.1 Timing

325.5.1.1 For OWG, WSC, JWSC and WC sprint qualifying round, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/100 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision but still the final results report the hundredths of a second.

325.5.1.2 For OWG, WSC, JWSC and WC sprint heats, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/1000 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision.

325.5.2 Qualification

325.5.2.1 In case of equal qualification times, the competitors who will be advancing to the quarterfinals will be ranked according to their FIS sprint points. If a tie remains, the positions are determined by a draw. The tie in qualification results will not change maximum number of qualified competitors (30 / 24 / 16). Competitors with the same qualification time who did not advance to the quarterfinals will have the same ranking on this result list.

325.5.3 Final heats

325.5.3.1 In the quarterfinals and semi-finals, the competitors will be ranked in the following order:

- The competitors without IRM (RAL, DNF, DNS, NPS) are listed first according to their arrival order. In case of a tie (dead heat) the competitors are ranked according to their qualification times.

- Competitors with IRM (RAL, DNF, DNS or NPS) are listed according to their qualification times.

325.5.3.2 In the Final (and B-Final) the competitors will be ranked in the following order:

- The competitors without IRM (RAL, DNF, DNS, NPS) are listed first according to their arrival order. In case of a tie (dead heat) the competitors are ranked in the same place.

- Competitors with IRM (RAL, DNF, DNS or NPS) are listed according to their qualification times.

325.5.3.3 In sprint competitions with 16 competitors to the quarterfinal the result list will be made as follows:

- 17th to last rank the results from the qualification round will be used

- 13th – 16th rank the 4th place finisher from each heat in the quarter-final will be assigned based on their respective ranking in the qualifying round
- 9th – 12th rank the 3rd place finisher from each heat in the quarter-final will be assigned based on their respective ranking in the qualifying round
- 5th – 8th rank based on the order of finish in the B final
in case of no B Final, the athletes are ranked according to their ranking in semi-final and their qualification round
- 1st – 4th rank based on the order of finish in the A final

With a different number of competitors in the sprint finals the same principles apply.

325.5.3.4

Final result

Competitors will be ranked on the final result list in the following order: Competitors qualified for the Final (and B-Final) are listed first according to their arrival order. In case of a tie the competitors are ranked on the same place.

If there is no B-Final, the competitors from the semi-finals who do not reach the Final are listed in the following order:

- The competitors without IRM (RAL, DNF, DNS, NPS) are listed first according to their ranking in their respective heat and their qualification times
- Competitors with IRM (RAL, DNF, DNS, NPS) are listed according to their ranking in their respective heat and their qualification times

Competitors from the quarterfinals who do not reach the semi-finals are listed in the following order:

- The competitors without IRM (RAL, DNF, DNS, NPS), are listed first according to their ranking in their respective heat and their qualification times
- Competitors with IRM (RAL, DNF, DNS, NPS) are listed according to their ranking in their respective heat and their qualification times

325.5.3.5

If the competitor does not start or ski the entire course in each heat, the competitor will be ranked in the last position of these finals, semi-finals or quarterfinals (rank 6, 12, 30 or 4, 8, 16).

325.6

Jury and Protest

325.6.1

In sprint heats at OWG, WSC, JWSC and WC the unanimous decision of minimum two Jury members (including TD) equates to a Jury decision.

325.6.2

Due to the timeline pressure of running successive heats it is not possible to allow protests during quarterfinals and semi-finals. Protests will only be accepted after the finals.

325.6.3

During quarter- and semi-finals, ICR 224.7 does not apply.

325.7 Competition interruption

- 325.7.1 In case of competition interruption of qualification while competitors are still competing, the competition will be cancelled.
- 325.7.2 In case of competition interruption during sprint heats before the last competitor of A-final has finished the race, the competition will be cancelled.
- 325.7.3 In case interrupted and cancelled competition is re-scheduled, the qualification race must be carried out again.

326 Team Sprint Competitions

326.1 Definition

Team Sprints are competitions carried out as relays with 2 athletes who alternately ski between 3 – 6 legs each. The numbers and distances of the legs have to be published in the official invitation.

- 326.2.2 Sections of the course must be designed straight, wide and long enough to make overtaking possible.
- 326.2.3 During the team sprint heats, no waxing of skis is allowed.

326.3 Entries – Substitution

326.3.1 The names of the competitors actually competing and their starting order must be delivered to the organiser latest 2 hours before the Team Captains' Meeting.

326.3.2 Substitution is possible according to ICR art. 313.4.

326.3.3 The substitute athlete must start in the same Team position as the substituted athlete. The Team's starting order cannot be changed.

326.3.4 In case of substitution, the Team will lose its starting position and will have to start at the end of the field. The start order at the end of the field will be the same as the original starting order. The original start positions will be left empty.

326.4 Starting Order and Start Procedure

326.4.1 Mass Start procedure must be used (see ICR art. 315.3).

326.4.2 Normally 2 semi-finals will be used to select the teams for the final in a Team Sprint competition. The teams should be evenly distributed among two groups using the following principle:

- Best team by total points will be assigned to group A
- Remaining teams will be assigned in subsequent pairs by ranking (example team 2 and 3, team 4 and 5, etc.) to alternating groups.

326.4.2.1 The better points of distance and sprint FIS points of competitors will be used. In case the entered competitor does not have FIS Points, 999 points will be used for calculation.

326.4.2.2 If there are more than 40 teams entered, the jury may decide to use 3 semi-finals and distribute the teams according the following principle:

A	1	6	7	12	13	18	19	24	25	30	31	36	37	42	43	etc
B	2	5	8	11	14	17	20	23	26	29	32	35	38	41	44	
C	3	4	9	10	15	16	21	22	27	28	33	34	39	40	45	

326.4.3 The number of teams in one semi-final heat should not exceed 20 and the number of teams in the final should not exceed 15.

326.4.4 The assignment of groups to the semifinals will be determined by draw.

326.4.5 Start position for the semifinals: the team with lowest total points using either sprint or distance FIS Points of the relay team members will start as number one. The team with the second lowest total points will start as number two and so on. In the case of more teams having equal total points, the team with the lowest point-holder starts ahead of the other. If this is not sufficient to determine the starting position, then starting position is drawn by lot.

326.4.6 The advancement of teams from the semi-final heats to the finals is done according to the following principles:

- in case of 2 semifinal heats:
- If the semi-final heats are not timed, the top 5 teams from each of the 2 semi-final heats will advance.
- When the heats are timed, then the top 2 teams from each heat will advance and the next 6 fastest teams from the 3rd - 8th ranked teams will advance. In case of a tie, the teams will be ranked according to their team total points. If a tie still remains, then the positions are determined by a draw.
- In case of three or more semi-final heats, up to 15 teams can advance to the finals using the same principles as above (2 teams from each heat plus next 9 fastest times when heats are timed or same number of teams by ranking from each heat when heats are not timed).326.4.7
The start position for the finals will be according to the results from the semi-finals (rankings followed by times).

326.4.8 Separate colors shall be used for the start numbers for each relay leg. For OWG, WSC and WC competitions they will be: 1st leg=red; 2nd leg= blue.

326.5 Timing and results

326.5.1 For OWG, WSC, JWSC and WC Team Sprint semi-finals and finals, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/100 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision but still the final results report the hundredths of a second.

326.5.2 Overlapping Rules normally apply. For teams/skiers that are lapped refer to ICR article 343.14

326.5.3 The final results will be published according to the following:

All teams in the final will be placed in the results list according to their rank in the final. When semi-final heats are used the teams who do not advance to the final round will be placed on the results list so that each team with the same rank in their heat will be given a ranking for the next available rank on the result list.

As an example, if 5 teams from two semi-final heats advance to the final then the teams ranked 6th in each heat will be given the rank of 11th and 12th according to their time in their respective semi-final heats, the teams ranked 7th in each heat will be given a rank of 13th and 14th etc. in the final results.

If the heats are not timed, then the ranking in the semifinals and the FIS points of the teams that did not qualify are used to determine the final ranking for these teams.

326.6 Jury and Protest

326.6.1 In Team Sprints at OWG, WSC, JWSC and WC the unanimous decision of minimum two Jury members (including TD) equates to the Jury decision.

326.6.2 Due to the timeline pressure of running successive heats it is not possible to allow protests during the semi-finals. Protests will only be accepted after the finals.

326.6.3 During Team Sprints, ICR 224.7 does not apply.

326.7 Competition interruption

326.7.1 If semi-final is interrupted while there are teams still on course, then the competition will be cancelled.

326.7.2 If team sprint final is interrupted when at least 3 teams have finished the competition, the competition will be valid and results published. The teams still on course at the time of interruption will be ranked as Lapped according their last respective intermediate times.

326.7.3 In case that interrupted and cancelled competition is re-scheduled, the semi-finals must be carried out again.

327 Relay Competitions

327.1 Definition

327.1.1 The relay team consists of three or four competitors, according to the invitation, of whom each may run only one leg. At OWG, WSC, JWSC and WC competitions, a Relay consists of four competitors.

327.1.2 In OWG, WSC, WC and JWSC the first two legs will be raced using the classical technique on a classical course and the second two legs using free technique on a free technique course.

327.3.1 The names of the competitors actually competing, and their starting order must be delivered to the organiser latest 2 hours before the Team Captains' Meeting.

327.3.2 Substitution is possible according to ICR art. 313.4.

327.3.3 The starting order cannot be changed by substitution.

327.3.4 The Team starting position on the start grid will remain the same.

327.4 Starting order and Start Procedure

327.4.1 Mass Start procedure must be used (see ICR art. 315.3).

327.4.2 Start numbers will normally be drawn. At OWG, WSC and JWSC the placing in the previous OWG, WSC or JWSC will determine the starting order. At WC, placing in the current Nation's Cup will decide the starting order. Teams which do not appear in those results will be drawn after those that did.

327.4.3 When each nation can enter more than one official team, the first team for each nation must be placed on the start grid before the second teams and likewise for the third teams etc. Unofficial teams should have the least favorable starting positions.

327.4.4 Colors: Separate colors shall be used for the start numbers for each relay leg. For OWG, WSC and WC competitions they will be: 1st leg=red; 2nd leg=green; 3rd leg=yellow and 4th leg=blue.

327.5 Timing and Results

327.5.1 Intermediate times for the individual legs of the course are taken when the competitor crosses the line for the intermediate timing. This is also the starting time for the next competitor.

327.5.2 The total time of a relay team is the time which elapses between the start and team's final competitor crossing the finish line. The order in which the competitors finish the last relay leg determines the result list.

327.5.3 Overlapping Rules normally apply. For teams/skiers that are lapped refer to ICR article 343.14

327.6 Jury and Protest

No specific rules.

327.7 Competition interruption

In case of competition interruption while teams are still competing, the competition will be valid if there are at least 3 ranked teams. The teams still on course at the time of interruption will be ranked in final results as lapped according to their respective position at last intermediate point.

The Chief of medical and rescue service will only carry out a medical examination at the request of the competitor's Team Captain, competitor or the representative of the FIS Medical Committee (see article 221).

343 Responsibilities of the competitors

343.1 In all training and competition situations the athlete must act with due care taking into account the course conditions, visibility and competitor congestion, available space, speed and skiing directions of other competitors etc.

343.2 In all training and competition situations the athletes must always ski in the competition course direction.

343.3 Competitors must follow the instructions (course opening times, wearing bibs, training, ski testing, etc.) issued by the Jury or OC in order to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition.

343.4 The competitor is responsible for arriving at the start and starting at the correct time.

343.5 Competitors must wear/use all the means of identification (bibs, leg bibs, transponders, GPS...) provided by the organiser.

343.6 Competitors must follow the marked course in correct sequence from start to finish and must pass all control points.

343.6.1 If competitors skis on a wrong section or leaves the marked course, the competitor should return to the point where the error was made. In order to do so, the competitor may have to ski against the correct ski direction and shall be totally responsible for ensuring that there is no obstruction and that other competitors are not endangered.

343.7 Competitors have to cover the whole distance on their skis using only their own means of propulsion. Help from outside pacemakers is not allowed.

343.8 In classical technique competitions, the competitors must use classical technique only.

343.8.1 In classical technique competitions, the maximum pole length must not exceed 83% of the competitor's body height. In free technique competitions, the maximum pole length must not exceed 100% of the competitor's height. The body height is measured with ski boots on from a flat surface, to the top of the uncovered head.

The pole length is measured from the bottom of the pole to the highest attachment of the strap.

All measurements will be rounded to the nearest centimetre as follows: less than 0.5 cm will be rounded down and 0.5 cm and above will be rounded up.

343.8.2 In classical technique competitions, the maximum pole length must not exceed 83% of the competitor's body height. In free technique competitions, the maximum pole length must not exceed 100% of the competitor's height. The body height is measured with ski boots on from a flat surface, to the top of the uncovered head.

The pole length is measured from the bottom of the pole to the highest attachment of the strap.

All measurements will be rounded to the nearest centimetre as follows: less than 0.5 cm will be rounded down and 0.5 cm and above will be rounded up.

343.9 As a general rule applying to all competitions, competitors shall not obstruct other competitors.

343.10 Passing of other competitors

343.10.1 Process of passing during Interval Starts

Competitors who are being passed must give way on first demand. This applies in classical technique courses even when there are two tracks and in free technique courses when the skier being overtaken may have to restrict his/her skiing movements.

- 343.10.2 **Process of passing during other competitions**
- 343.10.2.1 Competitors in front have the right to choose their best line.³
- 343.10.2.2 Competitors in front shall not obstruct competitors coming from behind.⁴
- 343.10.2.3 Competitors intending to pass shall do so without obstructing the competitor being passed.⁵
- 343.10.2.4 When competitors are alongside, they have mutual duties not to obstruct each other's movements.⁶
- 343.10.2.5 A process of passing is considered completed when the passing competitor has his/her body at the front of the ski-tips of the competitor being passed.⁷
- 343.11 In sections with marked corridors, the competitors should choose a corridor. Competitors are allowed to leave the chosen corridor as long as ICR 343.9 and ICR 343.10 are upheld.
- 343.12 Equipment exchange**
- 343.12.1 In all competitions pole exchange is only allowed in the case that a pole is broken or damaged. In classical technique competitions, if both poles are exchanged, they must comply with ICR 343.8.2.
It is however permitted to exchange poles in equipment pit boxes during ski exchange in Skiathlon competitions.343.12.2 Skis may be changed only if:
- The skis or bindings are broken or damaged. The equipment failure must be proven to the Jury after the competition.
 - Equipment exchange boxes (pit boxes, team boxes in Team Sprint) are in place at the competition.
- 343.12.3 In the case of any ski exchange, the competitor must do it outside of the track without help from any other person.
- 343.12.4 When ski exchange boxes (pit boxes) are provided for long distance or Skiathlon competitions, the competitor is permitted to change skis inside the pit box. All equipment exchanges must be done by the competitor within the assigned box without any assistance. Number of ski exchanges is limited to maximum 1 time. The replacement skis must be placed in exchange box before the competition.

³ Explanatory note: The provision reflects the reality that competitors in front generally do not see competitors coming from behind, and that competitors behind generally direct their course according to the positioning of the competitor in front. However, this right is not unrestricted, see the next provisions.

⁴ Explanatory note: The provision reflects restrictions in freedom of the competitor being front, meaning that this privilege shall not be abused to the detriment of other competitors, e.g. by abruptly changing the line or by unduly persisting in a line chosen.

⁵ Explanatory note: The provision reflects the spirit and intent of the preceding ones, meaning that a competitor intending to pass shall not initiate a pass if he/she realizes or ought to realize that there is not, or will not be, sufficient room to complete the pass without obstructing the competitor intended to be passed.

⁶ Explanatory note: The provision reflects the idea that when the competitors are skiing side by side, there is no privilege of anyone being in front, as set out in the preceding provisions. It is connected to 4.3 e.g. in the sense that a skier coming from behind shall not be allowed to force his/her way into a situation of mutual duties.

⁷ Explanatory note: The process of passing needs some guideline as to when that process is completed so as to determine when the passing competitor obtains the position described in Rule 4.1 and 4.2. The decisive criterion is, as a main rule, the point in time when the body – if need be, measured at the position of the boots – is ahead of the ski tips of the competitor being passed.

343.12.5 When ski exchange boxes (pit boxes) are provided, overtaking along the access corridors to the boxes is only allowed on the side that is farthest from the boxes.

343.12.6 Waxing, scraping or cleaning of the competitor's skis during the competition is forbidden. Exception: In classical technique competitions competitors may scrape their skis to remove snow and ice, and add wax if necessary. Competitors may only be handed tools or materials and must do this outside of the track without help from any other person. It is not allowed to place branches, tools or materials on or adjacent to the groomed course.

343.13 Relay exchange

343.13.1 In a team event, the exchange is achieved by the arriving competitor, with a tap of the hand on any part of the next competitor's body while both competitors are in the relay exchange zone. The next competitor may only enter the relay exchange zone when summoned. Any method of pushing the starting competitor is forbidden.

343.14 Overlapping

343.14.1 In Pursuit competitions, Skiathlon, Mass Start, Team Sprint and Relay competitions, competitors or teams, who are lapped or instructed by competition officials to stop the competition, must abandon the competition. The competitors or teams who are stopped will be ranked in the final results (no time) according to their ranking at their last intermediate timing point.

343.14.2 ICR art. 343.14.1 must be applied for OWG, WSC and WC.

343.14.3 For all other FIS competition the Jury decides if ICR art. 343.14.1 applies.

343.15 Communication devices that support wireless communication between coaches and athletes or between athletes are not allowed during competition.

343.16 The competitors must comply with the instructions of competition officials.

343.17 The competitor must comply with all aspects of the medical code (see 221).

344 Responsibilities of Officials and Others

344.1 If required, the Jury will issue special regulations for officials, media and service people and any other non-competitors, to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition.

344.2 For order and control on the courses the following principles apply:

- from 5 minutes before the start until the time the course closers have passed, all officials, coaches, non-competitors and other accredited persons, are not permitted to ski on the course. During the competition, these persons must take fixed locations beside the course and must stand without skis on.

- while giving intermediate times and information to competitors, officials, coaches and others are not allowed to run more than 30 meters beside the competitors
- while doing this work officials and others have to ensure not to obstruct competitors
- while giving refreshments to the competitors the coaches must ensure not to obstruct competitors and must maintain a fixed position.

344.3 In order to obtain clean TV coverage and for safety reasons parts of the competition course may be closed for all but the competitors taking part in the competition. The Jury can allow ski testing and warming up by competitors on parts of the competition course before and during the competition. Athletes and service personnel, wearing special bibs may be allowed to ski on these parts of the competition course.

344.4 Wax testing and warming up on the ski competition course must always be done in the competition course direction. Anyone testing skis on the competition course must consider the safety of others on the course and the course preparation. Electronic timing devices used for testing skis will not be allowed on the course during the competition or official training.

In this case, the competitor or team concerned will start in the least favorable start position.
- 352.2.7 Competitors disqualified in Sprints heats at Sprint competitions will keep their qualification result and will not be disqualified from qualification result list.

352.3 Competition suspension

- 352.3.1 Competition suspension can only be used for ICR infractions during sprint heats, team sprint heats, bonus sprints (both intermediate and finish) and popular competitions.
- 352.3.2 In Sprint competitions, a competition suspension means that the competitor will be ranked last in the heat and last in the round (6th for final, 12th for 1/2 finals and 30th for 1/4 finals).
- 352.3.3 In Mass Start or Skiathlon competitions, a competition suspension means that the competitor will be relegated out of the result of a bonus sprint.
- 352.3.4 In popular competitions, suspension means that the competitor is ranked on last rank and his/her time is not published.
- 352.3.5 Competition suspension will always be accompanied by a written reprimand.

384 The Course

384.1 Width

384.1.1 All obstacles must be cleared from the course to a width that allows, at a minimum, double tracks to be set throughout the length of the course. For free technique competitions, the course width should allow unhindered overtaking.

384.2 Start Area

384.2.1 The start area should be flat or nearly flat. It should lead directly into the course and be wide enough to avoid excessive crowding. The start should gradually narrow to the width of the course over a distance sufficient in length to allow competitors to spread out before entering the tracks. The start area should be organised to provide for

- ski marking
- control of competitor identification
- control of commercial markings
- competitor seeding
- crowd control.

384.3 Finish Area

384.3.1 The course should enter the finish area on a straight and flat approach. The finish area should be flat and sufficiently wide to allow several competitors to finish at the same time without impeding each other.

The last 200 meters should have a width of at least 10 meters and be divided into at least 3 lanes separated with appropriate markings. Where more than one competition (two races of different distances) are held over the same course at the same time, separate finishing lanes should be provided to ensure that the leaders in the longer competition are not hindered by slower finishers in the shorter competition. The finish area should be designed and equipped for the necessary control functions and to avoid crowding. Interview (mixed) and flowers ceremony zones should be fenced and separated from the crowd of finishing participants and spectators. Feeding, access to clothing, showers or transportation to such facilities should be clearly marked in different languages and available near the finish area.

384.4 Course Preparation

384.4.1 Pre-season

The course should be groomed and maintained to ensure that the competition can be held safely with a minimum of snow cover.

384.4.2 Winter preparation

The course should be packed and groomed throughout the winter to ensure a solid base for final preparation.

384.4.3 Free Technique

In free technique competitions, the course should be well packed and wide enough to allow two competitors to ski side by side. Where appropriate, one single track may be set along the side of the course. The last 200 meters should be prepared to a width of at least 10 m. This section should be divided into at least 3 lanes and separated with appropriate markings.

384.4.4 Classical Technique

Normally the course should be set with two tracks. Where the width makes it possible, more tracks should be set. In steep downhill or other locations as designated by the TD and chief of competition, no tracks should be set. In the finish area, the last 200 meters should be set with as many tracks as possible. In appropriate situations, with approval of the TD and the chief of competition, course grooming may take place during the competition.

384.4.5 Both Techniques

Competitions may be carried out in both techniques at the same time and on the same course. In such cases, the course for free technique should be separated from the classical course with appropriate barriers or markings so classical competitors do not have the opportunity to use the other course and vice versa. Each course should be packed and prepared in accordance with article 384.4.3 and 384.4.4.

384.5 Measuring and Marking

384.5.1

The competition course must be measured for length from start to finish by GPS device, chain, tape or measuring wheel. Each kilometer should be marked. The last 500 meters and the last 200 m should also be marked. Places such as steep downhill, curves, crossings should be given special marking.

384.6 Feeding

384.6.1

Feeding stations should be provided approximately every 10 km. If the course is difficult, the distance between the feeding stations may be shortened. In easy terrain, the distance may be increased. For competitions longer than 50 km different types of drinks and other appropriate nourishment should be provided.

384.6.2

When team officials give refreshments to their competitors, they must follow ICR 344.2.

384.7 Course Layout

384.7.1 Popular Cross-Country competitions should be conducted to accommodate all levels of competitors from recreational racers to elite athletes. Course layout should be adapted to the skill levels of the participants.

384.8 Bonus sprints

384.8.1 When having sprints along the course, the final approach to the sprint should be at least 75 m straight that is wide enough for 2 competitors to sprint side by side. The bonus sprint finish line must be clearly marked. Sprint controllers must be assigned to each bonus sprint.

385 Control

385.1 Control Procedure

385.1.1 All aspects of the competitions must be controlled in a manner to ensure the safe and fair conduct of the competition for the competitors. The location of control points and utilization of controllers should be determined by the chief of competition in consultation with the TD, giving particular attention to the following

- technique control, if any
- completion of the entire competition course without shortcuts
- completion of the entire competition on skis
- ensuring any support or assistance given competitors is in accordance with the ICR
- compliance with ICR commercial markings regulations
- providing a competition course free from obstructions
- ensuring competitors do not obstruct or hinder one another
- control at sprint positions and finish line
- other control aspects as required.

385.1.2 Controllers should be qualified to perform their assigned duties.

386 Medical and Safety

386.1 Chief of Medical and Rescue Service

386.1.1 A chief of medical and rescue service will be appointed for every PCCC. They will be a member of the Competition Committee, and may be invited to attend the Jury meetings. The chief of medical and rescue service must be a licensed medical officer.

386.1.2 First Aid and Medical Service

The first aid and medical services must be completely operational during all training times. Details of the Medical Support Requirements are given in chapter 1 of the FIS Medical Guide containing Medical Rules and Guidelines.

386.2 Planning

386.2.1 The medical officer shall prepare an emergency first aid, evacuation, and notification plan for injuries, accidents, or deaths. Information regarding this

plan and procedures to be followed in the event of injury, accident, or death should be provided to competitors and competition officials.

386.3 Training

386.3.1 The medical officer shall designate, inform and train a sufficient number of medical, safety and emergency personnel to provide for the safety and medical needs of the competitors.

386.4 First Aid Stations

386.4.1 The location of first aid stations shall be marked by appropriate signs along the course. There shall be heated first aid stations in the start and finish areas.

387 Sanctions, protests and appeals

387.1 In principle art. 352 applies. Any evidence on rules infraction, submitted within 48 hours after the last participant has finished the main race, must be considered and decided by competition jury within 72 hours after the first competitor has finished the race.

387.2 Protests concerning competitors with active FIS codes can be filed within 1 hour after the first participant has finished the main race. Such a protest must be filed according to ICR 361.4 and 361.5.

387.3 Protests concerning other competitors can be filed within 48 hours after the first competitor has finished the main race. Such a protest must be filed according to ICR 361.4.

387.4 The deadline for an appeal against the jury decisions for competitors with active FIS codes expires at midnight 2 days after the competition. Competitors with no active FIS codes have no right to appeal.

387.5 In competition with Block (wave) start, early start infraction should be sanctioned by a time penalty equal to the time gained (actual wave start time minus actual offender's start time) + 30 minutes minimum time penalty.

388 Cold Weather Precautions

388.1 Background

388.1.1 There are three main factors to be considered by the Jury regarding cold weather safety: the temperature; the duration of the exposure; and, the clothing and other protection against cold weather. These factors together with any other relevant information such as the "wind chill factor" must be taken into consideration when a decision is made regarding cold weather.

388.2 Between minus 15 ° and minus 25 °C

388.2.1 If the temperature level is forecast to be between minus 15 °C and minus 25 °C at any point on the course, recommendations regarding cold weather protection should be made available to the competitors. Under such conditions it is the responsibility of the competitors to seek the information and to follow the recommendations given by the organiser.

388.3 Minus 25 °C and below

388.3.1 If the temperature in a major portion of the course is minus 25 °C or below, the competition shall be delayed or cancelled.

388.4 Warm Weather Precautions

388.4.1 If the temperature is forecast to rise above 5 °C during the course of the competition, and exposure to sunshine is expected, recommendations must be given to competitors concerning clothing, skin protection and the need to consume adequate liquid before and during the competition. Feeding stations must ensure that they have adequate drinks to meet the increased demand. First aid stations must be briefed to be alert for signs of dehydration or any damage from sun exposure, and be prepared to take necessary measures in cases of dehydration or sunburn.

389 Cancellation Procedure

389.1 Policy

389.1.1 Normally the factors to be considered for the cancellation or the postponement of a competition are: temperature, weather conditions, snow conditions and course conditions. If a competition is postponed, a new date should be arranged with the NSA concerned.

389.1.2 Cancellation or Postponement more than six days before the competition

If a decision to cancel or postpone a competition is taken at least 6 days before the date of the original competition, the organising committee must immediately inform the NSAs, the media and post the information on the Internet. This decision will be made by the Organising Committee in consultation with the TD.

389.1.3 Short Notice Cancellation

A short notice cancellation is made six or fewer days before the date of the competition. However, a competition cannot be cancelled less than three hours before the scheduled start time except for the competitors' and officials' safety. The cancellation procedure must be included in the information to the competitors (see article 382.2). The cancellation decision shall be made by the Jury.

389.1.4 Refund Policy

If a competition is postponed, competitors who have paid the entry fee should be allowed to compete in the postponed competition without additional charge. If competitors decide not to compete in the postponed competition, the entry fee will not be refunded. The policy for refunds in a cancelled competition should be stated in the announcement for the competition (article 382.1).

H. Roller Ski Competitions

396 Roller Ski Competitions

396.1 Roller Ski ICR Definitions

396.2.9 Competitors are permitted to change or repair equipment during the competition but they must do this without any outside assistance other than being handed the replacement equipment or tools. Roller Ski change must be done according to article 343.12.

396.2.10 In order to provide safe and fair conditions for the competition the organiser and jury can limit the technical parameters for Roller Ski equipment (wheels, etc.) by announcing it in advance in the competition invitation.

- 396.2.11 The competition organiser can provide Roller Skis from an official Roller Ski equipment supplier for all athletes entered in competition. This must be clearly announced in official invitation. The Roller Skis must be distributed to the athletes by a draw supervised by a jury member.
- 396.2.12 If the competition organiser provides official Roller Ski equipment, Roller Ski exchange during the competition may be done only at an official service point (boxes) according to articles 343.12.2 – 343.12.3.

396.9.1 The exchange zone for Team Relay or Team Sprint should be a minimum of 10 m wide and 15 m in length.

396.9.2 The exchange zone must be clearly marked with a line at the beginning of the zone. When the front wheel of the arriving competitor reaches this exchange line the corresponding team mate is allowed to depart the exchange zone. No physical contact between the competitors is required.

False start during Team Relay or Team Sprint exchange must be sanctioned by time penalty (actual time gained + 15 seconds minimum penalty).

396.10 Classical Roller Ski technique

396.10.1 In classical technique competitions, the maximum pole length must not exceed 83% of the competitor's body height plus 2 cm. The measurements and rounding must correspond to the provisions of ICR art 343.8.2.
